July 2018 Food Systems Subcommittee Agenda

1. Roll Call

- a. As always, please help us keep our FS list updated by letting us know if there are any changes or errors to our roll call list.

2. SIT (State Implementation Team) Updates

- a. SEEDS 30-Day Rule

SEEDS 30-Day Rule

- 📍 What does the 30-day rule apply to?
 - 📍 Actions with an 'action date' or an 'end date' (also known as trigger dates)
 - 📍 DE, events, meetings, trainings, etc.
 - 📍 Does NOT apply to Partnerships or Implementation Stage
 - 📍 Partnerships due by end of fiscal year 9/30
 - 📍 Implementation Stages due twice a year on same date as SARNS (April and October)

SEEDS 30-Day Rule

- 📍 When does the 30-day rule go into effect?
 - 📍 Friday morning– July 13, 2018
- 📍 What does this mean for me?
 - 📍 All actions between from October 1 to July 1 should be in **completed** status.
 - 📍 Moving forward, you need to complete actions within 30 days of 'trigger date' which is the action date or the end date.

Action date/ end date: The date that the action was to take place.

Save the Dates for 30-day Rule Implementation:

- **July 11th** – we will have the Database Refresh in anticipation of the launch- no action needed.
 - *Live* SEEDS will not be impacted, the Training environment data will be refreshed with *Live* SEEDS data.

- **July 12th evening** – 30-day Rule will be deployed. (See attachment for more info.)
 - SEEDS will be down for approximately 1 hour
 - Cache will need to be cleared
 - Will provide more information about changes

- **July 13th morning**– 30-day Rule will be fully implemented

30-Day Rule Implementation Webinar information:

Tuesday, July 17 @ 11-12pm via GoToMeeting

GoToMeeting Join Link: <https://www.gotomeet.me/AzHealthZone>

For audio, use your device speaker and microphone.

Or dial-in to the toll-free conference line: 1-866-899-4679

Access Code: 722-019-405

1hr trainings providing an overview of 30-day rule and changes in SEEDS

Recording will be available.

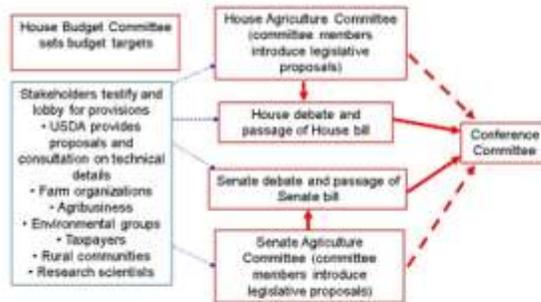

Sign up for SEEDS email updates at <https://www.surveymonkey.com/r/SEEDSemails>

- b. FY19-20 Applications
 - i. All LIAs got more feedback on revisions compared to last time. AzHZ now has a fully staffed team so there more people and time given to each application.
 - ii. Revisions are due back to the State Team tomorrow, Thurs 7/12
 - iii. State team will submit plan to DES on Friday, 7/20
 - iv. USDA will provide response by August or September.
 - v. Thank you all for your patience and cooperation during this grant process
☺

- c. LIA staff changes
 - i. Sabrina Plattner from CHAPS has left and is now working with the UA College of Public Health.
 - ii. Kevin Bawden is back with SNAP-Ed at Tempe Kid Zone in Maricopa County.

3. 2018 Farm Bill – Adrienne Udarbe

Farm Bill legislative process, part I

Farm Bill legislative process, part II

- The Farm Bill (aka: Agriculture Improvement Act of 2018) is currently in-between part I and II in the Conference Committee
 - Conference Committee: committee of the United States Congress made up by *House* of Representatives and *Senate* to resolve disagreements on a particular bill.
- Original draft of the Farm bill was dropped in April, went through a lot of revisions, and it failed to pass in May.
- Senate released their version in June 13. It is more SNAP-Ed friendly then the House version, which passed June 21.
- Obstacles for passing the Farm Bill:
 - The bill currently has two very different versions going into the Conference Committee, which may make it harder to pass
 - The bill discussion is also taking place at the same time of mid-term elections,
 - House Speaker Paul Ryan to retire
- Farm Bill expires September 30th
 - Possible delay is not impossible, or uncommon. There are advocates nationwide pushing Conference Committee to pass a version.
 - If it does happen, SNAP and SNAP-Ed will still be funded, but other discretionary programs (such as Farmers Market Promotion Program, Senior Farmers' Market Nutrition Program, and other programs we work with) would end until a budget is re-authorized.
 - SNAP-Ed format could stay the same, but with possible budget cuts or change in agencies. Currently, there are no exact plans
- Is the Farm Bill being used as a tool to pass other legislation?

- Unfortunately, yes. Congress goes in summer recess in August, and will have to explain it to their constituents.
- Feel free to a contact your local representatives as an individual, concerned citizen.

4. SET (State Evaluation Team) Updates

- a. FY18 Evaluations
 - i. SFSP
 1. Do it sooner rather than later while it's still fresh in your mind (early Aug instead of September when it's due)
 2. Can do one for your whole school district if services were similar throughout.
 3. Use website to watch webinars and get copies of the checklist.
- b. *New* KAN-Q training
 - i. Refresher training if conducting KAN-Q in schools, especially if doing FS strategies.
 - ii. Webinar information:
 - Monday, 7/16 @ 10am** via GoToMeeting
 - GoToMeeting Join Link:** <https://www.gotomeet.me/AZHealthZone>
 - For audio, use your device speaker and microphone.
 - Or dial-in to the toll-free conference line: 1-866-899-4679**
 - Access Code: 722-019-405**
 - iii. If you're conducting KAN-Qs, you need to be trained through the SET team during the webinar.
 - iv. Webinar will be recorded, and if you do it at your own time, you will have go through a procturing quiz with SET team seperately. Contact Laurel with questions
- c. Garden Champions Project- tabled

5. Discussion Topics (<https://www.surveymonkey.com/r/FScommittee>)

- a. Containers for sugar displays
 - i. Looking for ways to display the amounts of sugars in drinks. Does anymore who where we can get visual aid for this?
 - ii. Connie has some resources. Can share it via email.
 - iii. Other idea, measure how many grams of sugar are present in the bottle, and use salt as a visual. If the bottle breaks and anything spills, it will spill salt instead of ant-magnets aka sugar.

- b. Preliminary results from FS Priorities survey
 - i. 25 completed responses. Please complete the survey (<https://www.surveymonkey.com/r/MHWD5YR>) by Friday, July 27, 2018.
 - ii. Anyone and everyone involved with Food Systems work is being asked to complete this survey to assist us in identifying strategies, programs, and trainings that are needed by LIAs.
 - iii. Next steps
 - 1. Analyze and share results
 - 2. Draft objectives
 - 3. Create project-specific working groups
 - a. Will people connect in this FS subcommittee calls or different calls? FS subcommittee call should remain a place for updates to the group at large. Working groups can figure out among themselves what form of communication works best.
 - 4. Seeing how we can shift budget items, priorities, and trainings for the next FY

6. LIA check in-Violet from Navajo

- a. Question: Working with Basha's in Healthy Retail. Community Outreach and Patient Empowerment (COPE) is also doing the same work with Basha's on ways to make the store healthier. How can we work together without duplication?
 - i. Answer: Go over expectations and roles. Divide duties by strengths and which outcomes to focus on.
- b. COPE is working with local growers to supply large and small, independently owned groceries stores. Challenge in Navajo due to small quantity of growers.
 - i. Contact a group to follow up with supporting growers.
 - ii. Interesting way to tie in FM and garden strategies.

7. Closing

- a. Double check roll call info
- b. Fill out survey monkey if you have topics or questions ahead of time that you want to bring up with the group
- c. You're all great! We hope you're having a great summer.

Next AZ Health Zone Food Systems Subcommittee Meeting

August 8, 2018 10-11 AM

As always, please fill out our survey monkey if you want to bring up any questions to the call.
